Dan Cunningham.

A most dramatic and moving tale is the life story of Dan Cunningham, United States Deputy Marshall in one of the most lawless regions of America the Second District of West Virginia as it is told by Samuel Hopkins Adams in McClure's for June. Cunningham's long struggle against the evil clan which infested his district is full of strange adventures and exciting incidents.

Cunningham is described as a one-sided man; a fighter of one weapon. A mission of revenge dominates his life and his motive is vengeance. A band of lawless outcasts have "refuged" from Virginia into Jackson County, West Virginia, trailing after them a record of crime ranging from murder and arson down to petty thievery. Dan Cunningham's older brother was then United States Deputy Marshall, and in the performance of his duty as an officer was killed by these outlaws. The younger brother bides his time and eventually becomes United States Deputy Marshall himself. Then follow years of relentless pursuit and prosecution of the murderers of his brother, even unto the repeated flight and dissolution of the clan and the conviction and death of many of its members.

The courage, the character, the stern purpose and devotion to duty of this man of iron are well shown in the talk of extermination he has undertaken. In concluding his description, Mr. Adams says of his hero:

"His hatred of the clan has broadened and calmed to an implacable enmity against all those who condemn the law which he serves. Whether it is to break up a counterfeiter's plant, to quell a riot, or stop lynching, his strength is at call. At forty-eight he is the embodiment of the man of action; long, lean and powerful; keen-eyed, quiet, gentle and reserved; a personality to inspire confidence; a man such as those were who established civilization at the muzzle of a gun when the merchant Coleman saved San Francisco from anarchy in the wild fifties."

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. It's a sign that the blood is deficient in vitality, just as pimples and other eruptions are signs that the blood is impure.

It's a warning, too, which only the hazardous fail to heed.

Another Big Building.

Odessa is soon to have a big apple ware-house and coopershop. The new building will be erected by S. H. Phlegar, who looks after the fruit crops in Missouri, Arkansas and Colorado for Geo. W. Middendorf Co., of Chicago. The building will be 40 by 65 feet in dimensions and two stories high, and will be located on the E. & A. tracks on the south side of Mason street near the city mills. The first floor will be used for packing and storing apples, peaches, pears, etc. The second floor will be used for making barrels. Material for 6,000 barrels has been bought by Mr. Phlegar and is on the road now. Ten thousand more barrels have been contracted for and will be shipped later. Two years ago Mr. Phlegar purchased 18,000 barrels of apples in Missouri, for which he paid \$36,000 and \$15,000 of this was paid to farmers in and around Odessa. Last year he purchased 21,000 barrels of apples in New York. Mr. Phlegar is one of the best judges of fruit to be found anywhere, and each year his shipments to the main house are praised highly, and in services secured at an advanced salary. We are glad that Mr. Phlegar has decided to erect this large building here as it will mean much to the town and surrounding country by giving it a market for most everything in the fruit line. Work will probably be commenced on the structure the coming week.—Odessa Ledger.

PROTECT YOUR HOUSES From burglars by using the Hart Burglar Proof Automatic anti Rattler Sash Lock. We warrant every lock to do as represented below or money refunded. 1st, because the window cannot fall and break the glass. 2d, because it will stop the window at any desired height to admit air from top or bottom and cannot be raised by any one from the outside, making it burglar proof. 3d, it prevents the window from rattling, which is worth the price of the lock and there is no other lock on the market that will do what we claim for it.
